SUB-STATE PRESS RELEASE

For Immediate Release
June 22, 2021

May unemployment continues to decline in several areas in Nevada

According to the Department of Employment, Training and Rehabilitation's ([DETR](#)) May 2021 economic report, Nevada's seasonally adjusted unemployment rate was 7.8 percent in May 2021 down 24.5 percent in May 2020. Seasonally adjusted estimates account for regularly seen economic patterns, with the following estimates not seasonally adjusted.

In the three Metropolitan Statistical Areas (MSA), the unemployment rates were 8.9 percent in the Las Vegas area, 4.5 percent in Reno, and 5.0 percent in the Carson area in May 2021.

In Nevada's counties the lowest unemployment rate was in Eureka County at 2.2 percent, and Clark County had the highest rate at 8.9 percent. Since May 2020, all 17 counties have decreased their unemployment rates. For a look at unemployment rates in your county visit our [Area Profiles Page](#).

For the latest information on the Nevada economy including employment, unemployment, and unemployment insurance check out our monthly [Labor Market Overview](#), or for the latest on your area take a look at our monthly [Local Area Labor Market Overview](#).

Additional information on unemployment estimates along with a complete breakout of unemployment in counties, cities, and other areas in Nevada can be found by visiting our [Local Area Unemployment Statistics](#) page. Additionally, employment estimates by industry can be found at our [Current Employment Statistics](#) page.

Nevada Local Area Labor Market Overview

May 2021

Published on June 22, 2021

May's unemployment generally improved when compared to April 2021 and is down from May 2020. The state has an unemployment rate of 7.8 percent when accounting for seasonal patterns which is higher than the national rate of 5.8 percent. Within the state, rates ranged from 2.2 percent in Eureka County to 8.9 percent in Clark County. Within Clark County the city of North Las Vegas has the highest unemployment rate in the state of 9.9 percent.

In May, there were 15,401 initial claims in Nevada a decrease of 59,068 claims from May 2020, and down from a high of 208,869 claims in March 2020. Most claims were in the Clark County area. The statewide decrease in claims can be attributed to the decreases seen in Clark County, Washoe County and Carson City.

Figures for our unemployment estimates come from the Local Area Unemployment Statistics (LAUS) program, a state/federal partnership sponsored by the Bureau of Labor Statistics ([BLS-LAUS](#)). This program produces monthly and annual employment, unemployment, and labor force data for census regions, states, counties, metropolitan areas, and many large cities, based on place of residence. For more on LAUS data or for a look at estimates in your area visit our [LAUS Page](#), and for a look that the economic profile of Nevada, the MSAs, or your county visit our [Area Profiles Page](#).

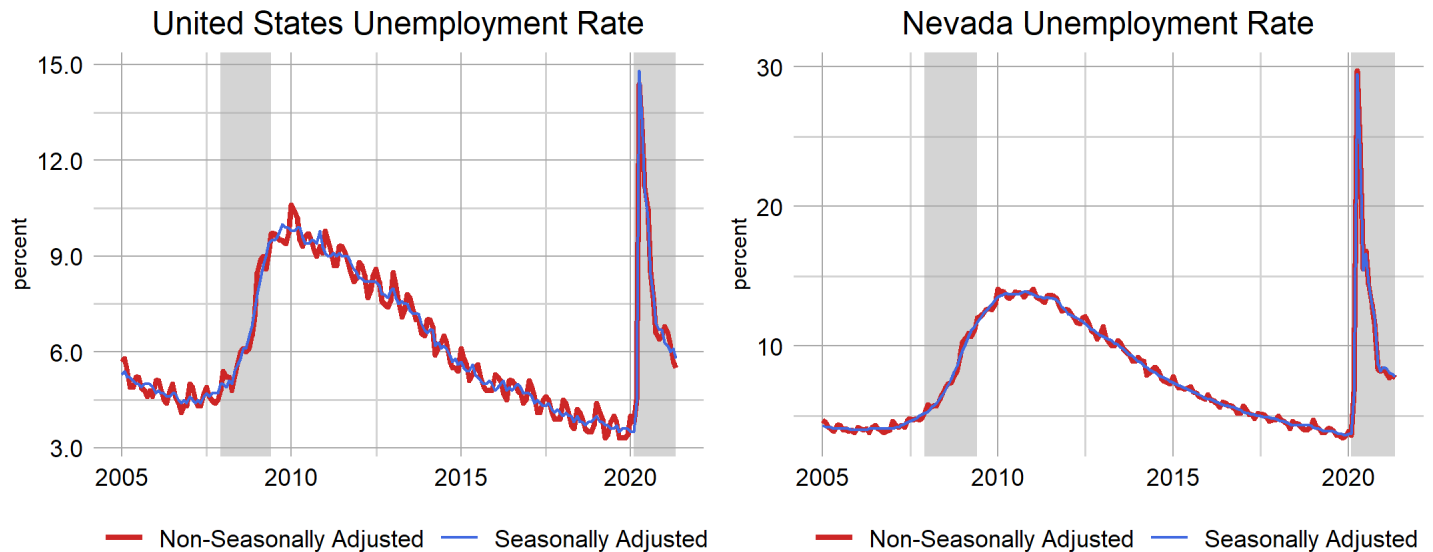

U.S. & Nevada Local Area Unemployment Statistics

Area	Labor Force	Employed	Unemployed	Unemployment Rate	Labor Force Participation Rate	Employment Population Ratio
US						
U.S.	160,607,000	151,778,000	8,829,000	5.5	61.5	58.1
U.S. SA	160,935,000	151,620,000	9,316,000	5.8	61.6	58.0
State						
Nevada	1,562,551	1,442,724	119,827	7.7	62.0	57.3
Nevada SA	1,564,428	1,441,899	122,529	7.8	62.1	57.2

SA denotes seasonally adjusted data

Seasonally adjusted estimates account for regularly seen seasonal employment patterns such as jobs associated with holiday hiring, holiday and weather seasons, or other jobs with seasonal components. The result of a seasonally adjusted estimate is usually a smoother estimate from which underlying economic trends can be seen. Adjusted estimates are in the summary table above, and in many of the other tables and figures through this document.

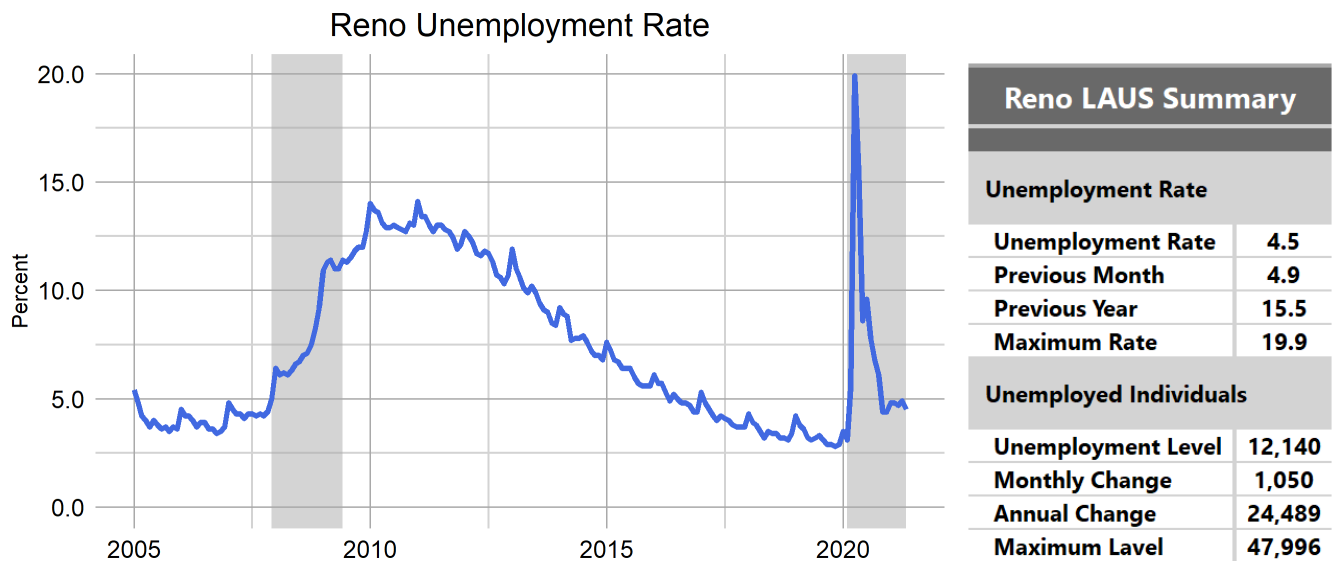

Nevada's unemployment rate was 7.8 percent in May 2021, decreasing from 8.0 percent in April 2021, and down from 24.5 percent in May 2020, seasonally adjusted. The number of unemployed individuals decreased by 2,557 since April 2021 for a current level of 122,529 people, which is 229,165 less unemployed people than May 2020. The labor force in Nevada is currently 1,564,428 people, which is 4,503 more people than April 2021, and is up 129,399 people since May 2020.

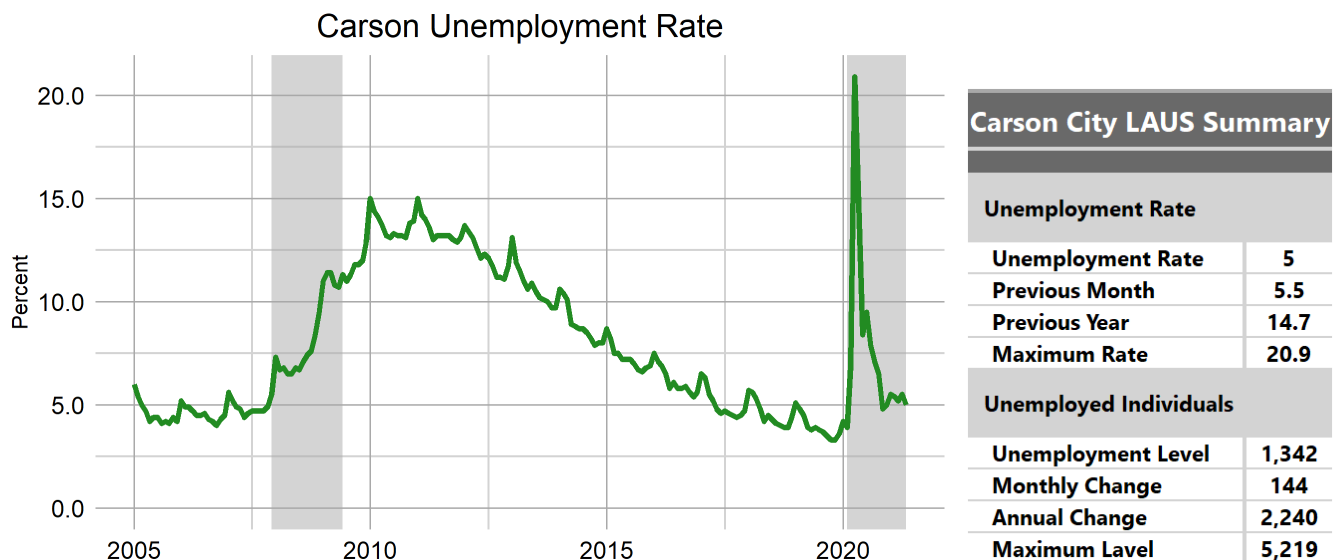

The Las Vegas MSA's unemployment rate was 8.9 percent in May 2021, decreasing from 9.1 percent in April 2021, and down from 28.1 percent in May 2020, non-seasonally adjusted. The number of unemployed individuals decreased by 1,018 since April 2021 for a current level of 100,708 people, which is 197,522 less unemployed people than May 2020. The labor force in Las Vegas is currently 1,133,052 people, which is 11,000 more people than April 2021, and is up 72,403 people since May 2020.

The Reno MSA's unemployment rate was 4.5 percent in May 2021, decreasing from 4.9 percent in April 2021, and down from 15.5 percent in May 2020, non-seasonally adjusted. The number of unemployed individuals decrease by 1,050 since April 2021 for a current level of 12,140 people, which is 24,489 less unemployed people then May 2020. The labor force in Reno is currently 269,888 people, which is 329 more people than April 2021, and is up 33,780 people since May 2020.

The Carson City MSA's unemployment rate was 5.0 percent in May 2021, decreasing from 5.5 percent in April 2021, and down from 14.7 percent in May 2020, non-seasonally adjusted. The number of unemployed individuals decreased by 144 since April 2021 for a current level of 1,342 people, which is 2,240 less unemployed people then May 2020. The labor force in Carson City is currently 27,032 people, which is 148 less people than April 2021, and is up 2,649 people since May 2020.

For more on the economy of your county including unemployment, employment, unemployment insurance, wages, and more visit our [Area Profiles Page](#).

Unemployment Insurance Benefits (UI)

Initial claims for unemployment insurance totaled 15,401 statewide in May, down 62.3 percent from April. May showed the lowest total initial claims filed in 2021. The elevated number of claims in March and April 2021 can be explained by the benefit year ending for applicants, requiring applicants to file new initial claims. The decrease in claims this month follows a similar trend from May 2020 and can be expected to continue to decline. New COVID-19 health regulations and protocols may explain the decrease in this month's initial claim total as well. Pandemic-related effects on unemployment will continue to vary these values.

At the county level, most counties saw a decrease in initial claims. On average, counties saw a 61.4 percent decrease in initial claims while continued claims stayed relatively unchanged. The statewide decrease in initial claims can be attributed to the decreases seen in Clark, Washoe, and Carson City. Esmeralda, Storey, Eureka, and Pershing counties saw the largest percent decreases in initial claims of 87.5 percent, 75 percent, 72.22 percent, and 70.21 percent, respectively. Continued claims for the regular unemployment insurance, which are a proxy for the number of persons filing for regular benefits in a given week, were largely unchanged in the month. Continued claims levels have been more stable in the recent months as most of Nevada's claimants are receiving benefits from the pandemic extension programs.

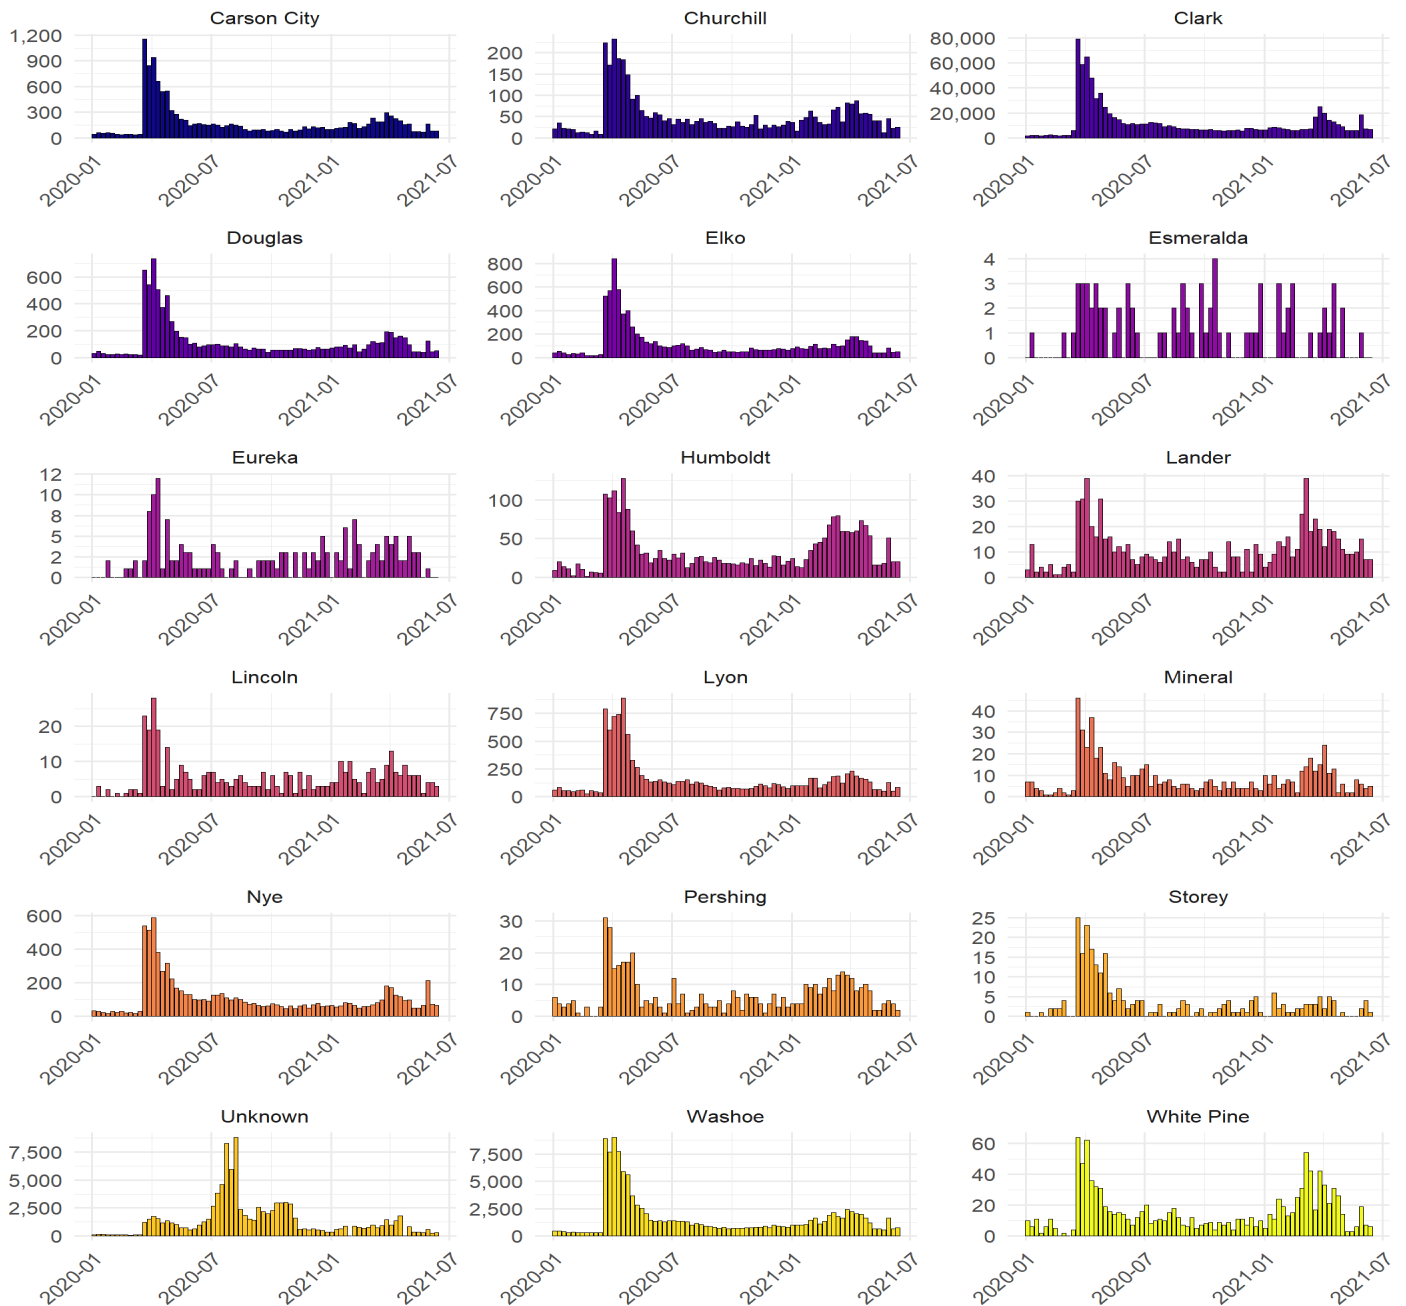

Looking to other measures of unemployment insurance activity, we saw most counties' final payments increase since last month apart from Pershing County. First payments decreased in Churchill, Elko, Eureka, Humboldt, and Lincoln while increasing in all other counties. Additionally, almost all counties saw an increase in benefit payments with Esmeralda County seeing the largest percent increase over the month of 233.4 percent. It should be noted that most of Nevada's claimants have already exhausted their regular program benefit weeks and are likely receiving pandemic extension program benefits.

UI Claims Activity by County						
	County	First Payments	Final Payments	Weeks Compensated	Benefit Payments	Average Weekly Benefit
