Nevada Local Area Labor Market Overview

June 2022

Published on July 26, 2022

The state seasonally adjusted unemployment rate for June decreased by 0.2 percentage points to 4.7 over the month. The rate is 2.5 percentage points down from 7.2 percent in June 2021. The state non-seasonally adjusted rate rose to 5.1 percent from 4.7 percent in May. Looking at non-seasonally adjusted data at the county level, we see that all counties had increases in unemployment rate. However, it is important to reiterate that this data is unadjusted for seasonality. Lincoln County rate saw the highest over the month increase, from 3 percent to 3.9 percent. Pershing county rate increase from 3.1 percent to 3.8 percent.

Figures for state unemployment estimates come from the Local Area Unemployment Statistics (LAUS) program, a state/federal partnership sponsored by the Bureau of Labor Statistics (BLS-LAUS). This program produces monthly and annual employment, unemployment, and labor force data for census regions, states, counties, metropolitan areas, and many large cities, based on place of residence. For more about LAUS data and estimates in your area visit our [LAUS Page](#), and to see the economic profile of Nevada, the metropolitan areas, or your county visit our [Area Profiles](#) Page.

SA denotes seasonally adjusted data

Seasonally adjusted estimates account for regularly seen seasonal employment patterns such as jobs associated with holiday hiring, holiday and weather seasons, or other jobs with seasonal components. The result of a seasonally adjusted estimate is usually a smoother estimate from which underlying economic trends can be seen. Adjusted estimates are in the summary table above, and in many of the other tables and figures throughout this document.

Looking to other measures of unemployment insurance activity, most counties' final payments decreased or remained unchanged from last month aside from Carson and Storey. Clark County saw the highest decrease (-203) in final payments over the month. First payments, however, increased or remained unchanged in most counties. Lander and Lincoln County were the only two counties in the state that saw decreases in first payments from May to June, although they only saw dips of 2 and 1 respectively.
