NEVADA STATE REHABILITATION COUNCIL (N.S.R.C.)
MEETING MINUTES
February 8, 2022, at 9:00 AM

Department of Employment, Training and Rehabilitation
500 E Third Street, Carson City, NV 89713
&
Vocational Rehabilitation
3016 West Charleston Blvd., Las Vegas, NV 89102

COUNCIL MEMBERS PRESENT:
  Raquel O’Neill
  Rebecca Rogers
  Mary Brabant
  Judy Swain
  Marshal Hernandez
  Alex Goff

COUNCIL MEMBERS ABSENT:
  None

GUESTS/PUBLIC:
  Nancy Brune, Ph.D., Senior Fellow, Guinn Center
  Mark Noyes, Market Decision Research
  Carley Murray, NV PEP
  Ashlee Cooper, Opportunity Village
  Steven Cohen, member of the public
  Dora Martinez, member of the public

DIVISION STAFF:
  Chiricy Harris, Deputy Attorney General
  Latonia Coleman, DETR Deputy Director
  Drazen Elez, VR Administrator
  Javier Fernandez, VR Liaison to N.S.R.C.
  Mechelle Merrill, VR Deputy Administrator of Programs
  Sheena Childers, VR Bureau Chief
  Mat Dorangricchia, VR Northern District Manager
  Trina Bourke, VR Southern District Manger
  Jocelyn Medina, Administrative Assistant
  Regina Higley, Administrative Assistant

1. CALL TO ORDER, INTRODUCTIONS, AND VERIFY TIMELY POSTING OF AGENDA
   Raquel O’Neill, Chair called the meeting to order at 9:02 a.m. Javier Fernandez NSRC Liaison called the roll.

   Mr. Fernandez determined a quorum was present and verified that the posting was completed on time in accordance with Open Meeting Law.

2. FIRST PUBLIC COMMENT
   Raquel O’Neill called for public comment.

   Steven Cohen emailed his public comment attached to these minutes.

   Ms. O’Neill congratulated Mr. Cohen on his Tax Prep services he is providing to the community.
Drazen Elez welcomed new DETR Deputy Director, Latonia Coleman and is excited about the wealth and knowledge she is bringing to the organization to transform the training, culture and improving productivity.

Latonia Coleman thanked Mr. Elez and commented on the successes she has seen in the short time she’s been with the Department.

3. APPROVAL OF THE NOVEMBER 9, 2021 MEETING MINUTES
Ms. O’Neill asked the council for any modifications, changes or corrections to the November 9, 2021 Meeting Minutes.

Rebecca Rogers made a motion to approve with the meeting minutes as written. Judy Swain seconded. All in favor, none-opposed, none-abstained, motion carried.

4. DISCUSS AND EXPLORE INDIVIDUAL PLANS OF EMPLOYMENT (IPE’S) TO ALIGN WITH FEDERAL REGULATION
Mechelle Merrill, Rehabilitation Division Deputy Administrator began the discussion of Individualized Plan of Employment (IPE’s) and reviewed the Guidance for Special Education from the March 8, 2021 meeting. Frequently asked questions asked about criteria for integrated employment location in the definition of a competitive integrated employment and participant choice may not meet the criterion of the definition. The participant may choose to work in a setting with sub-minimum wage. To be considered a competitive integrated employment setting a job position must satisfy three criteria related to wages, benefits, integration and opportunities for advancement. It must meet full or part time work in which the employee with disabilities are compensated including benefits at a rate of pay higher than the federal, state, or local government minimum wage applicable and not less than the customary rate paid by employers to employees without disabilities performing the same or similar work and who have the same experience, training and skills. Location must be typically found in the community, where the individual with disabilities interacts and performs the duties within the work unit at the work site. As appropriate for the work to be performed who are not individuals with disabilities. Presents opportunities for advancement as well as non-disability workers in the same position.

Vocational Rehabilitation had come out with a similar guidance guideline called Competitive Integrated Employment Evaluation. Vocational Rehabilitation has the responsibility to make sure that participants are making informed choices and they understand the consequences of those choices. The Vocational Rehabilitation agency has the responsibility to determine if a job is in a competitive integrated setting. They follow a walk-through process in determining if the position is typically found in the community and interacting with others. The purpose of the job is not only meant for individuals with disabilities, but also for those without to be purposefully employed. The position must be opened to all applicants, regardless of their disability status. If only those positions satisfying all three criteria related to wages, benefits, integrated employment location and opportunity for advancement would be considered competitive integrated employment.

Ms. Merrill mentioned how proud she is that Vocational Rehabilitation has never counted anything other than competitive integrated employment position as a successful employment. VR does not encourage sheltered or sub-minimum wage. VR works with their clients to understand the choices they are telling us they want. If any individual with disabilities makes an informed choice not to pursue an integrated employment per 34 CFR 361.37B requires that VR counselors determine the individual's ineligible for VR Services and refer the individual to other programs for assistance in obtaining the chosen employment goal.

Section 10 of The Rehabilitation Policies and Procedures speaking about counseling guidance, assessment of Vocational Rehabilitation needs and the individual plan for employment. This policy refers to the time and resources counselors use to work with individuals to meet sustainable employment through work on
an individual’s primary employment factors:

- Facilitate the obtainment of meaningful, sustainable employment consistent with an individual’s primary employment factors (strengths, resources, priorities, concerns, abilities and capabilities), as well as the individual’s interests and informed choice.
- Sufficiently addresses barriers to employment, accommodation needs and other needs that will facilitate sustainable employment; and
- Facilitate the development of both hard and soft skills the individual needs in order to maintain or advance in employment.

The Assessment of Vocational Rehabilitation Needs (AVRN) is a transparent process of exploring vocational options; determining how disability related barriers to employment can be diminished, accommodated or eliminated; and exploring how their vocational needs can be met in order to assist the participant to make informed choices, that have a high probability of leading to sustainable employment.

1) Required considerations include:

- Explore short and long-term employment goals; and
- Identify the participant’s interests and primary employment factors (strengths, resources, priorities, concerns, abilities and capabilities) as they relate to employment; and
- Explore labor market trends and in-demand industries; and
- For individuals traditionally in low wage occupations or who have little work experience: career pathways, measurable skill gains, obtainment of credentials and/or opportunities for the individual to participate in job driven training that will result in high quality employment outcomes and enhance career options should be explored; and
- For individuals who receive SSI or SSDI: prior to selecting the vocational goal, the counselor and the individual need to discuss the individual’s goals as they relate to training benefits or earning sufficient income to get off benefits, and how the individual’s priorities in this area affect the individual’s vocational choices. Individuals should be referred to and participate in benefits planning, as available, and be referred to Social Security Administration if additional discussion regarding their benefits is needed.
- Explore other pertinent income and benefit needs or considerations; and
- Explore the pros and cons of various vocational options.

2) Before finalizing a chosen goal

Both the counselor and participant must agree the goal will be a good job match and has a high probability of leading to a sustainable employment before including the goal on the plan.

The counselor should not agree to a goal that is not consistent with the participant’s primary employment factors or that does not have a high probability of resulting in sustainable competitive integrated employment for the individual.

3) Agency requirements when determining IPE services

Counseling and Guidance must always be included in the plan. Services that will accommodate, diminish or eliminate barriers to employment but be built into the plan.

Addressing disability related barriers to employment may include, but is not limited to:

- Retraining for a vocational goal or choosing a selective placement that is within the participant’s abilities.
• Restoration services that can be achieved, in a reasonable amount of time, aimed at alleviating the disability related barrier to employment, such as a medical treatment.
• Assistive technology that alleviates or compensates for functional limitations due to the disability.
• Identify, supporting, or teaching the participant to self-advocate for accommodation needs, and when appropriate short-term assistance in providing the accommodation.
• Addressing behavioral, psychosocial or interpersonal barriers an individual may have to employment as a result of his or her disability.
• Job development, job coaching or appropriate use of job development resources for individuals with cognitive disabilities who are unable to independently search for employment or learn job duties once employed.
• Supported employment for individuals who meet the criteria required for provision of this service; or
• Customized employment for individuals who meet the criteria for the provision of this service.

4) Limitations on Services

Some limitation of services including, but not limited to financial participation policies, comparable benefits policies, requirements found in scope of services, policies regarding the purchase of goods and services.

While participants should make an informed decision regarding vocational services, a “want” is not always a vocational need. The counselor and participant should closely examine an identified service in order to determine if it is a “want” or a “need”, and be able to provide an adequate rationale on why the service is needed to reach the vocational goal, and document this in the client’s case file.

5) Individualized Plan of Employment (IPE)

After agreeing on a vocational goal and the services needed to reach the goal, the counselor and participant commit to these goals in writing by completing an IPE. The IPE is not a contract, but rather an agreement made in good faith, which delineates the employment outcome and services to be provided that are needed to achieve the outcome.

• All services provided by VR must be included in the IPE, or the IPE amendment (except services necessary to complete the assessment of eligibility or initial vocational rehabilitation needs; and
• Services included on the IPE must be necessary to achieve the employment outcome.

6) Timeline

The IPE must be developed as soon as is reasonably possible, but not later than 90 days after an eligibility determination. In extenuating circumstances, the counselor and participant may agree to an extension of time. If additional time is needed to explore the vocational goal or service needs, as appropriate and applicable, the counselor and participant may complete an extension.

7) Mandatory Federal Requirements

a. The employment
b. The services as described
c. The timeline for achievement
d. Service providers and procurement methods
e. Criteria to evaluate the progress
f. Terms and conditions
g. For Supported Employment
h. Post-Employment needs
i. For Students
j. For Individuals receiving services from an Employment Network
k. Employment Outcome/Vocational Goal

8) IPE Annual Reviews

IPE reviews should occur as often as necessary, and at least annually from the date of the original IPE. The annual review must be completed on the electronic case file annual review form that is signed by the counselor and participant. It should document the participant’s progress toward achievement of the employment outcome. It is not only an opportunity to document progress and justify continued services but also to determine if corrections or changes are needed when appropriate progress is not being made.

5. GUINN CENTER REPORT ON INTEGRATED EMPLOYMENT OPPORTUNITIES FOR INDIVIDUALS WITH DISABILITIES IN NEVADA

Nancy Brune, Senior Fellow with the Guinn Center presented the following report.

Motivation for Report for Integrated Employment in 2014 from then Governor Sandoval. Resources are limited in Nevada.

Integrated Employment: Overview
- In 2014, then-Governor Sandoval issued Executive Order 2014-16, which established the Task Force on Integrated Employment. In 2015, the Task Force published Nevada’s Strategic Plan on Integrated Employment 2015-2025.
- However, despite reports, initiatives, and new policies enacted in recent years, data reveal that integrated employment opportunities for individuals with intellectual and/or developmental disabilities (ID/DD) remain limited.
- Given that Nevada’s stakeholders have identified competitive, integrated employment as a goal and have embraced Employment First as a guiding principle, why have integrated employment outcomes declined?

Day and Employment Services
For individuals with disabilities who seek to participate in employment and community activities, state agencies can support these individuals with four types or categories of day and employment services:
1) integrated employment – employment in community setting, paid competitive employment
2) community-based non-work – services nonpayment employment, community volunteer work
3) facility-based work – vocational services, sheltered work
4) facility-based non-work – do not involve paid employment
Why? Categories of Explanations
1) Education and Transition Planning
2) Employer Engagement, Development and Support
3) Supply of Opportunities
4) Impact of Work on Benefits
5) Performance Management and Data Systems
6) Government as Leader

Findings
1) Education and Transitions Planning
   • Person-centered planning and the supported decision-making framework are not being used and/or integrated into transition planning consistently
   • Students are not getting connected to services before they graduate
2) Employer Engagement, Development and Support
   • Employer outreach remains limited: 65% of businesses surveyed responded that they had never been contacted
3) Supply of Opportunities
   • Nevada appears to have a limited number of service providers, particularly among organizations and entities that provide support and services to individuals with I/DD
4) Impact of Work on Benefits
   • Continued concern about the benefits cliff

Conclusion
To maximize the options available to individuals with I/DD and their families, one would expect to see a more balanced mix (or diversified portfolio) of options. A more balanced option of service and opportunities could better serve the distinct needs and varied interests of individuals with I/DD.
Ms. O’Neil and Alex Goff thanked Ms. Brune for the presentation. Ms. O’Neill asked what could be done to get more community involvement? Ms. Brune commented on the different organizations that the Guinn Center are in conversations with for future involvement.

Drazen Elez mentioned VR has seen similar issues and have started The Ticket to Work program. The agency has started to work on strengthening the collaboration with the school districts and has been a challenge. Expanding the contact with employers to leave a longer lasting impression with them to use the agency for some of their workforce needs. The issue of losing medical benefits are a concern for individuals on disability and possibly losing them. The issues we experience go along with the report presented.

Resource available from Nevada Disability Advocacy and Law Center (NDALC) for individuals with questions on benefits and disability.

8. **DIVISION REPORT**

Drazen Elez, VR Administrator presented the staffing updates. VR has a 30% vacancy rate currently we are at a 23% vacancy rate. Items to report include case load totals and Fair Hearings and the strategic plan for this year. Technical assistance from some of our federal partners and designated technical assistance centers. San Diego University will be reviewing our agencies practices and will provide suggestions where we could improve operations. Consulting of staff with general surveys to develop new goals. New direction for VR is on our website at vr.nevada.org for anyone to look at. A letter of intent was sent out to Legislation Bureau Council for our financial budget from the last session.

Sheena Childers, VR Bureau Chief provided caseload statics updates. Counselor caseload size is 81 up from 75, this total included VR, General and Blind and Visually Impaired cases. Open cases as of December 2021 was 2948. January new open cases in 227 highest number since the start of the pandemic.

Nevada State Rehabilitation Council quarterly goals based on Federal Fiscal Year 2022.

**Goal #1** Increase number of Successful Employment Outcomes.

Current total is 152 the goal is 550
**Goal #2a** Increase Participation for Students with disability in VR Transition Services.

Current total is 226 the goal is 200

![Goal #2a Table](image)

**Goal #2b** Increase Participation and Increase Successful Outcomes of Students with a Disability in VR Transition Services and Post-Secondary Education.

Current total is 145 the goal is 300

![Goal #2b Table](image)
Goal #2c Increase Participation and Ensure Students with a Disability receive appropriate Pre-Employment Transition Services (Pre-ETS)

Current total is 90 the goal is 500

Goal #3a Increase Participation of Supported Employment Consumers in VR

Current is 441 with 23% goal is 35%

Goal #3b Increase Successful Outcomes of Supported Employment Consumers in a Competitive, Integrated setting

Current is 43 with 36% goal is 100
**Goal #3c: Increase Successful Outcomes of Students with a Disability who are also Supported Employment consumers in a competitive, Integrated Setting – Outcomes**

Current is 6 or 43% goal is 40%
Goal #4 Collaborate with other Resources to Support Participants with Mental Health Disabilities to Obtain and Maintain Successful Employment.

Current is 152 or 41% goal is 40%

Ms. Merrill reported that in the last quarter there were no Fair Hearing requests received by the Division.

VR developed the VR Strategic Plan for 2022 with seven priorities:

1. Rebuild DETR staff
2. Modernize and Innovate
3. Client Centered Design
4. Accountability and Transparency
5. Compliance with Federal Regulations
6. Improving Visibility and Enhanced Branding
7. Improving Performance Indicators

Strategies were established for each priority to assist in achieving the goal. This information is located on the VRNevada website and is updated as items are completed.

Priority 1 – Rebuild DETR Staff

- Strengthen recruitment efforts (utilizing social media & linked in, diversifying methods for recruitments, use staff to network and recruit)
- Supervisory leadership training academy
- Mapping out career ladders
- Mentoring program/buddy system
- Expanding training opportunities with Dale as Coordinator with budget

Priority 2 – Modernize and Innovate

- Redesign Business Services Team/outreach to business to include free services to business
- UDT/Improving internal utilization by RC/remove silos
- BDT/Engagement of Governor’s Economic Development team/Elisa to speak with GOED & Inc. VR
- Adapting Work Environment to Changing Market Labor/Client Needs/Facility upgrades
- GET DB 101/include in the budget
- Ask for more staff, internal job developers, transition coordinators
- Get loop system for WestBay and Corporate

Priority 3 – Client Centered Design

- Redesign Pre-ETS program/service delivery
- Rewrite RC evals to emphasize MSG’s/Quality vs. Quantity
- Upskilling the UDT Inc. new procedures for referral
- Paying for quality placements
- Streamlining P&P with client needs as the motivator for all

Priority 4 – Accountability and Transparency

- Quarterly state of VR meetings with all staff
- Supervisor taking more active role in case management and staff development.
  - Changing role/expectation of supervisors
  - Supervisors to breakdown perception of silos
  - Supervisor work performance standards – quantifiable measure of supervision – review last case notes
  - Supervisors to do all evaluations timely
  - Letters of Instruction for late eligibility/extensions and late evaluations (adding/implementing consequences at all levels) (Record of Coaching)
- Establishing tools of positive reinforcement
  - Establish statewide Employee of the month
  - Establish a Morale Committee – statewide
Ask staff what would incentivize them (morale, communication, ask operates statewide)

- Improve reporting platform and active utilization
  - Mandate use of reports
  - Expansion of usable reports
  - Tableau contractor for Developing reports/dashboards and public accountability

- Customer Service
  - Future follow up on current fires (AA III)
  - Return phone calls/email policy 24 – 48 hours
  - Time Doctor – required use
  - Bi-monthly report out from commissions, councils, boards, etc. and development of agency platform (AA III)

Priority 5 – Compliance with Federal Regulations

- Finalize Prior Approval procedure and implement
- Address/readdress Single Audit Findings
- Monitor of quarterly Pre-ETS expenditures
- Enforce the 9-point closure requirement of all cases

Priority 6 – Improving Visibility and Enhanced Branding

- Clear logo with all versions used approved and on SharePoint
- Clarify email signatures
- Format PowerPoint theme/lobby logo and posters
- Name Badges/polo shirts/tv in lobbies
- Indoor/Outdoor signage for buildings

Priority 7 – Improving Performance Indicators

- Increasing MSG%
- Data validation and staff accountability
- Pay for higher quality closures
- Data integrity days-no clients-no email

Mr. Elez commented that the items mentioned are helping the organization stay focused on the goal. The two Bureaus are currently in the process of restructuring. The Bureau of Vocational Rehabilitation and the Bureau of Service to the Blind and Visually Impaired They operate separately but function as one organization and will have one statewide supervisor going forward. The North and South regions will have better resources and support to reach out to the rural areas and provide support to those communities.

A letter of intent and required quarterly reporting was recently sent to the Legislative Council Bureau regarding the client service expenditures for both Bureaus which are part of the Rehabilitation Division. The reports evaluated and assessed the need for the distribution of additional funds to the Division which have been appropriated during the 2021 Legislature for allocation during the 2021-23 biennium. They also provide risk assessment of agency potentially entering Order of Section, as defined in the Workforce Innovation Opportunity Act (WIOA). The Rehabilitation Division is expected to seek distribution of additional general fund resources set aside for the Division use. According to the current first quarter forecasts the agency is expected to experience a General Fund shortfall in the amount of $787,905 in SFY 2022. Furthermore, the Rehabilitation Division estimates that it is at a “low” risk of needing to pursue Order of Selection status.
6. **PRESENTATION OF THE RESULTS OF THE FFY2021 CONSUMER SATISFACTION SURVEY, CONDUCTED ON BEHALF OF THE VOCATIONAL REHABILITATION PROGRAM BY MARKET DECISIONS RESEARCH**

Mark Noyes, Market Decisions Research presented the following information for the Consumer Experience Survey 2021 Annual Results Covering General VR, Youth in Transition and Older Individuals who are Blind and Visually Impaired.

Market Decisions Research (MDR) completed a total of 1,418 surveys in 2021.
- General VR Consumers: 1,148
- Youth in Transition Consumers: 208
- Older Individuals who are Blind Consumers: 62

These surveys were done with consumers with cases open during January 2021 to September 2021, or with cases closed within that time frame.

Cases were further stratified by case benchmarks indicated by NV VR/OIB Program.
- In service IPE to 6 Months
- In Service 6 to 12 Months
- In Service 18+ Months
- Closed Cases

**Data Collection During COVID-19**

Data collection was conducted from January to December 2021.
- Unlike 2020, no pauses of changes to our initial data collection plan were necessary to complete data collection.

All data was collected in two different modes
- By telephone from MDR’s data collection facility, and
- A new online survey module using email addresses from VR’s sample file.

The overall response rate was 29.1%.
- This marks a decline in repose rate compared to prior years. Declines in response rate have been common over the COVID pandemic period.

Results are weighted to reflect population characteristics (age, gender, etc.).
- Results accurately reflect the views of your three service populations.

**Core Metrics Summary**

**What are the VR Consumer Experience Core Metrics?**

The core metrics are the broad measures of the VR consumer experience.

- Key measures of the consumer experience that can be compared across concept, across groups, and trended year to year.
- Allow comparison of results across VR agencies using similar metrics.
- Some are domains, which are calculated by combining several questions.
- Others are individual questions.
- Nevada has 11 core metrics
Calculation of the VR Consumer Experience Core Metrics

The consumer experience core metrics all use a common 0 to 100 scale.

- The most positive result is bound to 100.
- The least positive result is bound to 0.
- Each metric is the average of all scores.

The higher the score the more satisfied the consumer or the more positively they view their experience.

- A score of 100 would represent an extremely positive experience among VR Consumers.
- A score of zero would imply an extremely negative experience.

What are the VR Consumer Experience Core Metrics?

- **Overall Satisfaction and Expectations**: A global measure of the consumer experience with Nevada VR/OIB Program.
- **Experience with Services Provided by VR**: This measure focuses on the services provided by the VR or OIB program and the range of services available in each program.
- **Experience with Staff and Counselors**: Consumer’s experience working and interacting with Nevada VR/OIB Program staff and their counselors.
- **Communications with VR Staff**: This measure also looks at consumer’s interactions with staff but is focused specially on communications between the consumer and staff. That this is separate from other experiences with staff underscores the importance of communications in the way that consumers rate their experience with Nevada VR/OIB Program.
- **Consumer Control and Involvement**: How consumers perceive their involvement in the process and control over the choices and goals.
- **Outcomes and Meeting Goals**: How well consumers perceive the services provided by Nevada VR/OIB Program help them meet their goals.

What are the VR Consumer Experience Core Metrics?

- Would you tell your friends with disabilities to go to the Nevada VR/OIB Program for help? (recommendation)
- Did you experience any problems with Nevada VR/OIB Program, or the services provided to you?
- The ease if the application process.
- The accessibility of the Nevada VR/OIB Program office for someone with your type of disability.

**Nevada VR/OIB Consumer Experience Core Metrics**

Most scores have maintained a high level of consistency. The item that stands out the most is the scoring for the Older Individuals who are Blind section. Accessibility of the VR office for someone with your type of disability is currently 66. Which is lower than the remaining scores. This may be attributed to office access.
General VR

Trends to Watch

Positive Aspects of the Consumer Experience

- VR consumers are positive overall but continue to praise their experience with VR staff and counselors.
- The percentage reporting problems remained stable compared to 2020, despite individuals being better prepared for many of the problems caused by the pandemic.
- Individuals were generally more likely to say they would recommend the program to their friends in 2021 compared to 2020.
- Those completing their IPE to 6 months in service were more positive about their control and involvement than other groups, and less likely to report experiencing problems.
- Unlike prior years, those with closed cases were much positive than other groups. They reported a more positive experience than others for all core metrics except outcomes and meeting goals and experiencing problems.

Less Positive Aspects of the Consumer Experience

- The least positive general VR domain is Overall Satisfaction and Expectations and Communications with Staff (both 73).
- Other less positive domains include:
  - Experience with Services Provided by VR
  - Ease of the Application
  - Satisfaction with Employment
- Those in-service 6 to 12 months are less positive about every domain and key outcome. While they still report an experience that is positive overall, this group felt challenged by services to a greater extent than any other.
- General VR consumers consistently experience more problems, as in prior years.
Data shows positive movement over the three trimesters of data collection over the year.

**Problems Experienced**

26% of consumer reported experiencing a problem with VR or the services they were provided.
- Of those experiencing a problem, 33% indicated that Nevada VR worked to resolve the problem.
  - General VR 74% - reported no problem
  - Closed Cases 79% - reported problem
  - Cases open more than 18 months 72% - reported problem
  - 6 to 12 months in service 68% - reported problem
  - IPE to 6 months in service 77% - reported problem

**Types of Problem Experienced by General VR Consumers**

- Counselor did not return calls, emails or follow up – 16%
- Listen to customer, understand needs, wants, ability – 16%
- Did not receive employment – 11%
- Better communication needed – 5%
- Services offered were not effective – 6%
- Counselor was not helpful or supportive – 6%
- Didn't receive job search help – 6%

**Consumer Feedback**

- Consumers were asked to provide additional feedback when they were not positive in their assessment.
  - Not satisfied with VR
  - VR did not meet expectations
  - Disagreed that VR helped or met their goals, they did not feel welcome, they found something difficult, they did not find VR accessible.
- Feedback was collected through the survey in response to 21 questions.
- Consumers could provide more than one response.
- The following table summarizes the most common responses from 831 consumers that provided additional feedback. This is 72% of interviewed general VR consumers.

**Employment and job satisfaction**

41% of General VR consumers are working
- Working full time, that is, more than 35 hours per week – 23%
- Working part time – 18%
- Currently looking for a job – 38%
Job Satisfaction

72% of employed consumers are satisfied with their job.
- 6 to 12 months in service – 51%

Job Satisfaction

Why are you not satisfied with your current job?
- Had another job, career, training in mind – 12%
- Need a job aligned with skills, training – 10%
- Dissatisfied with aspects of parts of job – 7%
- Problems with employer or coworker – 7%
- Not a career move, only temporary job – 6%
- Bored with job, been at job too long, burnt out, need change – 6%

Youth in Transition

Trends to Watch

Positive Aspects of the Consumer Experience

Overall, Youth In Transition (YIT) consumers report having a very positive experience with VR and the services they receive
- Accessibility of the VR Office is the most positive aspect of their experience followed by Experience with VR Staff and Counselors.
- Nearly all youth consumers would recommend the VR program to their friends with disabilities.
- Youth in service IPE to 6 months are more positive about the following aspects of their experience:
  - Their choice of service providers,
  - Communication with staff
  - Overall satisfaction,
  - Outcomes and meeting goals, and
  - Satisfaction with current employment.

Less positive Aspects of the Consumer Experience

- Least positive domains are Ease of the Application Process and Overall Satisfaction and Expectations.
- Communication has been trending down throughout the year.
- Declining Domains (two or more consecutive trimesters)
  - Communication with Staff
  - Ease of the Application Process
  - Customer Control and Involvement
  - Recommend VR (98% in Trimester 2 dropped to 92% in Trimester 3 of 2021)
- Despite the declines in 2021, youth are still very positive overall.

Youth in Transition Services

- A series of questions were asked to assess use of special services targeted toward youth in transition.
- Almost all those receiving these services found them valuable.
▪ Job exploration counseling or career counseling – 57% receiving services – 92% finding service valuable
▪ Work based learning experiences including a job, internship, or volunteering – 56% receiving services – 97% finding service valuable
▪ Workplace readiness to help get ready for the challenges of work – 61% receiving services – 97% finding the service valuable

Problems Experienced

▪ 17% of youth consumers reported experiencing a problem with VR or the services they were provided.
▪ Of those experiencing a problem, 46% indicate that Nevada VR worked to resolve the problem.

Types of Problems Experienced by YIT Consumers

▪ Listening to consumer, understand need, wants, ability – 15%
▪ Counselor was not helpful or supportive – 13%
▪ Counselor did not return calls, emails or follow up – 11%

Feedback from Youth in Transition

Consumer Feedback

▪ Consumers were asked to provide additional feedback when they were not positive in their assessment.
  ▪ Not satisfied with VR
  ▪ VR did not meet expectations
  ▪ Disagreed that VR helped or met their goals, they did not feel welcome, they found something difficult, they did not find VR accessible.

▪ Feedback was collected throughout the survey in response to 21 questions
▪ Consumers could provide more than one response.
▪ The following table summarizes the most common responses from 103 consumers that provided additional feedback. This is 59% of YIT consumers.

▪ Forms and paperwork hard, complicated – 16%
▪ Better communication needed – 13%
▪ COVID-19 related problems – 13%
▪ Received no help in reaching plan or goals – 12%

Older Individuals Who are Blind

Trends to Watch

Positive Aspects of the Consumer Experience

▪ OIB program consumers report overall positive experiences, but not as positive as they have been in the past.
▪ The most positive part of their experience is working with OIB program staff and counselors.
▪ Other positive areas include:
· Experience with Services Provided by Nevada OIB program,
· Customer Control and Involvement,
· Outcomes and Meeting Goals, and
· Overall Satisfaction and Expectations.

· Several domains declined in 2021 trimester 1 but have since notably improved:
  · Outcomes and meeting goals,
  · Overall Satisfaction and Expectations, and
  · Experience with Services.

Less Positive Aspects of the Consumer Experience

· OIB program consumers report challenges with the application process and rate it more negatively than others.
· More OIB program consumers have experienced problem with the program than other populations.
· Communication with the OIB program was a challenge throughout 2021 and has historically been a lower domain.
· OIB program consumers experience issues with office accessibility more often than other populations. It is the lowest domain score among this populations.

Nevada VR Consumer Experience Core Metrics for Older Individuals Who are Blind – Trends

Accessibility of the OIB program office for someone with our type of disability – very low 56 in Trimester 3 of 2021 – declined over time since Trimester 3 of 2020

Problems Experienced

· 15% of consumers reported experiencing a problem, the least of any population.
· Of those experiencing a problem, only 11% indicate the OIB program worked to resolve the issue.

Types of Problems Experienced by OIB Program Consumers

Counselor did not return calls, emails or follow up – 67%
Did not receive employment, VR could not find me a job – 50%
Listen to customer, understand needs, wants, ability – 33%

Feedback from Older Individuals Who are Blind

Consumer Feedback
Time lag to get services, appointments – 26%
Counselor did not return calls, emails or follow up – 19%
Forms and paperwork hard, complicated – 19%
Counselor was not helpful or supportive – 19%
COVID-19 related problems – 19%
Better communications needed – 16%

New COVID – 19 Items

· This section details the questions added in August 2020 to assess the impact of the COVID-19 pandemic on the consumers experience.

· Questions added are:
  · COVID1. In what ways has the corona virus pandemic affected your experience with VR/OIB?
COVID-19 Impact on the Consumer Experience
Unable to meet with counselor, social distancing – 28%
Process has slowed down, delays in achieving goals – 21%
Difficulty communicating, hard to get in touch with counselor – 18%
Feedback changed due to consumers polled and the impact on them from COVID restrictions.

- Despite its broader impacts, the pandemic did not affect services for most consumers.
- 20% of consumers put services on hold due to the pandemic.
- OIB program consumers were most likely to pause their services.
- Just over one in ten General VR (12%) and Youth (17%) stopped looking for work.

COVID – 19 Impact on the Employed
- Among those who are currently unemployed, 23% of general VR and 20% of youth in transition lost a job because of COVID-19.
- Among general VR, 43% were laid off while 47% of youth experienced a layoff.
- Around one-fifth left a job because of concern for their health.

Conclusions

Positive Consumer Experiences
- Despite the challenges of the pandemic, consumers remain positive about VR/OIB program experience.
  - Few consumers report significant impacts and most continued their services.
  - A small percentage lost a job or stopped looking for one.

- The most positive aspects of the consumer experience are working with staff and counselors and accessibility of the program office.
- The YIT population report a more positive experience than other populations.
- Those in-service IPE to 6 months among General VR and Youth are more positive than other service phases.
- By region, rural consumers are more positive about their experience than the North or South.

Areas of Focus for Quality Improvement
- While no longer the least positive domain, communication is the primary subject of quality improvement feedback.
  - True of all three service populations
  - A greater issue given the challenges of the pandemic
  - Consumer feedback focuses on staying connected and the time it takes to contact their counselor:
    - Counselor did not return calls, emails or follow up
    - Changing counselors, switching too much, causes problems
    - Better communication needed
    - Calls, mail not returned for days, weeks, had to wait too long for return call
  - Among suggested improvements:
    - More open communication with client, more follow-up
Better communication in general  
Increase accessibility of the office and to counselors

In addition to basic communication issues, population mentions specific issues about not feel heard or respected.

Common feedback includes:
- Listen to customer, understand needs, wants, ability
- Counselor was not helpful or supportive
- Counselor would not listen, dismissed concerns
- Evaluate where customer is with disability (OIB program specifically)
- Take specific interests into account when creating goals

Core areas to monitor and improve

While still largely positive, more consumers report issues with staff and counselors.
- Domain increased consistently in 2021 among General VR and OIB and remained stable among Youth
- Outcomes and meeting goals are also declining for both VR/OIB program compared to this time in 2020.
- OIB and General VR are more likely to recommend VR/OIB program compared to this time in 2020.
- The application process remains one of the more negative aspects of the experience.
- OIB consumers report considerably more difficulty accessing office than at any prior point.

Moving Forward

Data collection will continue in three Trimester data collection periods.
- January – April
- May – August
- September – December

Data collection will still be primarily handled by telephone.
- Consumers will be provided additional methods by which to complete data collection.
  - Online
  - Mail/Paper
- We predict online surveys will move to become the primary format for data collection as the survey evolves.

Initial efforts to complete the survey will be done by telephone, followed by:
- Email reminders to those with available and valid emails
- Consumers may request an email invitation to the survey or a mailed paper version of the survey.

Continue to ask COVID-19 items until services return to normal.
- Better response rate
- More flexibility

Probe the potential benefits of moving to an online-first contact method
- Counter decreasing – but still above average – response rates
- Cost effectiveness
2022 is a survey renewal cycle where we will be reviewing some questions, doing interviews, and running some focus groups to assess if something in the survey needs to be changed or additional questions are needed.

Ms. O’Neill and Mr. Elez thanked Mr. Noyes for his detailed presentation. Mr. Elez mentioned 6 to 12 months in service consumers are stressed with the process and changes going on with their service plans.

7. **OTHER REPORTS**
   None presented at this meeting.

9. **COMMENTS BY THE COUNCIL**
   Ms. O’Neill thanked David Nuestro for his participation during his term and work on the special sub-committees for NSRC meetings.

10. **PUBLIC COMMENT**
   None.

11. **ADJOURNMENT**
    Meeting adjourned at 12:11 p.m.
