DETR issues statement on UI system error

CARSON CITY, NV - Today, the Nevada Department of Employment, Training and Rehabilitation (DETR) issued the following statement in response to inquiries regarding tardy unemployment insurance payments.

The agency's full statement is below:

DETR has identified an error in the UI system and staff is working to correct the issue, which has resulted in some claimants reporting they have not received the additional \$600 in federal pandemic unemployment compensation this week. The issue is expected to be resolved tomorrow and all payments will be caught up shortly after the issue is resolved. DETR will share further updates if additional issues arise.

As a reminder, claimants file for benefits reflecting the previous week, meaning the first day to file for the week ending July 25 began on July 26. All claimants who are eligible for the federal pandemic unemployment compensation payment will be paid the benefit, including those eligible for retroactive benefits.

###

The Department of Employment, Training & Rehabilitation (DETR) is the state's lead workforce development agency. It consists of divisions that offer workforce related services, job placement and training, services for people with disabilities, investigation of claims of discrimination, unemployment insurance benefits, labor market data and more. Many of these services are provided through Nevada JobConnect career centers and in cooperation with its community partners.
